CAREER OBJECTIVE

Passionate software engineer seeking a challenging opportunity where I can apply and expand my Ruby on Rails expertise while contributing to impactful, scalable web applications in a collaborative environment.

PROFESSIONAL SUMMARY

- 3 years of hands-on experience as a Software Engineer specializing in Ruby on Rails development.
- Strong understanding of object-oriented programming (OOP) and proficient in MVC architecture.
- Skilled in building scalable and maintainable web applications using Ruby on Rails, JavaScript, HTML5, CSS3, and Bootstrap.
- Proficient with version control tools like Git, GitHub, and GitLab; familiar with team collaboration tools such as Slack and Trello.
- Experienced in writing unit and integration tests using RSpec, with a focus on test-driven development.
- Exposure to Elasticsearch, Docker, Kubernetes, and OpenAI APIs.
- Proven ability to adapt to evolving client requirements and deliver high-quality code on time or ahead of deadlines.
- Committed to clean code practices, participating in code reviews, and staying updated with industry trends.

WORK EXPERIENCE

Project #7: GitexGlobal24 - Seen CoWorking

Duration: Nov 2024 – Present

Description: This website allows users to book events and spaces based on their specific requirements. Depending on the user's membership subscription, the platform provides access to space availability either for free or as a paid service.

Responsibilities:

- Implemented full CRUD operations for users and bookings.

- Built functionality for both space and event bookings.

- Integrated Stripe payment gateway for seamless and secure transactions.

- Developed a subscription management feature to handle various membership plans.

- Developed features for user authentication, including login, sign-up (via email and mobile), and password management.

Technology: Ruby on Rails, PostgreSQL

Project #6: Pocket Dispatcher

Duration: Jul 2024 – nov 2024
Description: Web application for communication with delivery personnel and tracking shipments.
Responsibilities:

- Developed features for login, sign-up (email and mobile), password management, and CRUD operations.

- Integrated Geocoder for location services.

Technology: Ruby on Rails, PostgreSQL

Project #5: XtraPlayer App
Duration: May 2024 – Jun 2024
Description: Cricket performance analysis and data management app.

Responsibilities:

- Integrated and customized ChatGPT API for performance tracking and match analysis.
- Integrated Partnership API and Score API.
- Implemented changes related to innings functionality.

Technology: Ruby on Rails, PostgreSQL

Project #4: Cashee KSA Project
Duration: Jan 2024 – Apr 2024
Description: Financial management app for kids and teens in Saudi Arabia.
Responsibilities:

- Fixed bugs and implemented the challenge feature.
- Worked on enhancing user features, financial tracking, and security compliance.
  Backend: Ruby, Ruby on Rails
  Frontend: JavaScript, HTML5, CSS3, Bootstrap
  Database: PostgreSQL
  Version Control & Collaboration: Git, GitHub, GitLab, Slack
  Testing: RSpec
  Tools & Platforms (Basic Exposure): Docker, Kubernetes, Elasticsearch, OpenAI APIs

Products #3: MailCoster & Employee Management

Duration: Aug 2023 – Dec 2023
Description: Developed two products simultaneously: an HR management system for small and medium-sized businesses and MailCoster, an email marketing platform.

Responsibilities:

- **MailCoster**:

- **Campaign Management**: Implemented features for creating and managing marketing campaigns, including scheduling and tracking. Developed functionality to track campaign interactions such as opens, clicks, bounces, and unsubscribes.
- **Content Management**: Managed email content, including HTML and text parts, and developed content templates for use in campaigns.
- **User and Account Management**: Managed user accounts and system settings, including account logos and website links.
- **Attachments and Images**: Implemented image storage and management for email content and user accounts.
- **Search functionality**: Implemented search functionality for efficient content retrieval.
- **Technologies**: Ruby on Rails, HTML, CSS, PostgreSQL, JavaScript, Redis, Sidekiq.

Employee Management:

- Developed features for employee information management, time tracking, performance management, and recruitment.
- Created reports and analytics to aid HR decision-making.
- **Technologies**: Ruby on Rails, HTML, CSS, PostgreSQL, JavaScript.

Project #2: Vonahi Security
Duration: Mar 2023 – Aug 2023
Description: Automated network penetration testing platform (vPenTest).
Responsibilities:

- Contributed to features and improvements, focusing on backend coding and database queries.
- Developed real-time monitoring and reporting features.
- Ensured compliance with various industry standards and facilitated ease of use.
Technologies: Ruby on Rails, HTML, CSS, JavaScript, Jquery, PostgreSQL, Sidekiq.

Project #1: Josh Fan App
Duration: Oct 2022 – Mar 2023
Description: A reel-based social media app similar to Instagram and TikTok.
Responsibilities:

- Solved bugs related to payment and video chat functionalities.
- Enhanced features and maintained the backend using Ruby on Rails.
- Wrote clean, maintainable code and participated in code reviews.
Technologies: Ruby on Rails, HTML, PostgreSQL, Razorpay.

ACADEMIC RECORD

B. Tech. in computer science branch from Bansal College Of Engineering, BHOPAL (M.P.) with an aggregate of 84.80%. (2019 – 2023)

- 12th from Govt. Boys H. S. School Kotra Bhopal (M. P.) with an aggregate 78.6% (2018 –

2019)

- 10th from Govt. Boys H. S. School Kotra Bhopal (M. P.) with an aggregate 81.5% (2016 – 2017)

TECHNICAL SKILLS

Programming Languages: Ruby, JavaScript
Web Technologies: HTML5, CSS3, SASS, Bootstrap
Frameworks & Libraries: Ruby on Rails, jQuery
Database Systems: PostgreSQL, MySQL
DevOps & Tools: Git, GitHub, GitLab, Linux/Ubuntu, Docker (basic), Kubernetes   (basic)
Testing: RSpec
Other: RESTful APIs, OpenAI APIs (basic usage), Elasticsearch (basic), Sidekiq, Redis

STRENGTH   .

- Self-belief and Learning New Things

- Working with a Team to Achieve Goals Together

CERTIFICATIONS

- HackerRank Certification in SQL (Basic)

PERSONAL DEATAILS

- **Name:** Rohit Kushwaha

- **Date of Birth:** August 16, 2002

- **Gender:** Male

- **Nationality:** Indian

- **Marital Status:** Single

- **Languages Known:** Hindi, English

DECLARATION

I here by confirm that all particulars furnished above are true and complete to the best of my knowledge and belief.
